

DESIGNED TO ORGANISE
YOUR **FLEXIBLE WORK SPACE**

INNOVATE • LIBERATE • MOTIVATE

INNOVATE

Hotbox HB-One was launched in 2004 after 2 years of research and development and has achieved success globally, where it still sets the standard for secure portable and flexible personal storage.

As the awareness, appeal and benefits of agile working continue to grow and evolve so too, do the demands for the Worktools we need to work comfortably and efficiently within the workplace.

"Our customers told us the way they wanted to work was changing and the tools they used at the workplace had changed, too. They needed a more flexible, fun and personable Hotbox that would also work with them as an on desk organiser, wherever they decided to work. This would make it easier and quicker to set up for working and very importantly, feel comfortable and organised in an unfamiliar space." Says Jamie Rothwell the inventor of Hotbox

In 2014 Hotbox HB-two was launched to meet and exceed these demands. Developed in partnership with Rachel Forster, Hotbox HB-two extends the Hotbox family and offers users a fully adaptable and personable worktool for the agile workplace.

Hotbox Storage is the pioneering and unique agile worktool designed to solve the issues of personal storage and organisation in an agile workplace.

AGILE WORKING. ACHIEVE IT

Be Organised: If you're working in different locations, you'll need to be more organised. To carry documents and resources with you, file as much as you can electronically. Dump the junk and get rid of all unnecessary clutter. Use hotboxes, laptop bags or rucksacks to make what you do need, easier to carry.

Be Productive: It's very easy when working on your own to spend the day doing non-critical 'stuff' that makes you feel busy. To avoid this, make a list of what you need to do each morning, prioritise it and select the most important tasks to do first. Only tackle the other items when these are finished.

Be Equipped: Making proper use of the right equipment will maximize your ability to work flexibly. Understand what hardware and software your organisation is using and attend any training offered. Learn how to access your files remotely, and keep in touch with your team using communications software such as Skype for Business or Microsoft Lync.

Be Comfortable: Wherever you are working, set up a comfortable environment quickly so you don't lose time. Learn how to adjust the chair, sit square to the desk and try not to hunch, especially when using a laptop. Learn how to use and adjust screens and keyboards. Don't be afraid to ask your organisations occupational health team for advice. It is important to sit comfortably.

Be Flexible: Agile working only works if colleagues are equally flexible and considerate. Avoid "beach-towelling" a desk or work area, keep it tidy so others can use it. Don't book rooms for a meeting you could hold in the breakout area or canteen. Follow this simple etiquette and there will be plenty of work areas and rooms available when you need them.

EMBRACE IT

TRANSPORT

Transport your work tools easily and safely from your locker to your workspace or wherever you want to work.

ORGANISE

Everything you need is quickly to hand and ready to make your workspace comfortable and organised.

PERSONALISE

Make your space more personal by choosing your own HB-two cover colour, add a logo or favourite image and stick your photos up inside.

SPEED

Save time setting up and packing away by having everything organised and quickly to hand.

TECHNOLOGY

Carry your technology safely and use the optional tablet and smart phone stand to create your own workspace.

HB-two

HB-two Bright, light and personal, HB-two is the flexible portable storage system for all your work. Choose the interior storage to suit your needs and finish off with a fabric cover of your choice. Carry your laptop, tablet, files and pens in style and individualise your space.

GO-two

The new **GO**-two courier bag has been designed to work in harmony with your HB-two, making it even more flexible, practical and comfortable to use on the **GO**.

HB-two slides effortlessly into **GO**-two and with additional flexible front and side pockets, **GO**-two offers you more storage space on the move for your power leads, mouse and other essential travel accessories.

GO-two gives you full access to your HB-two either from the top on the move, or from the front at your workspace. This makes it quick and easy

to set up your workspace wherever you are, so you can be ready to work in seconds and with everything you need easily to hand.

GO-two is the perfect travel companion for you and your HB-two.
